Re: Riley Arts Trail (INDOT Contract R-41318)  
Advise pending fuel tank removal and remediation with 3Pro Environmental, LLC

Dear Members,

Greenfield is having INDOT construct the Riley Literary Trail (Agreement dated 11/17/2020). On the south side of E. North Street (between State Road 9 and American Legion Place), a tank in the City's right-of-way was uncovered by the contractor. The tank is presumed to be an abandoned fuel tank that may have served 2 E. Main Street.

The contractor was prepared to submit a delay claim so Staff called IDEM and environmental consultants for guidance on how to proceed. Since this is a fuel tank, it is not under the control of IDEM, however, the owner (City) must proceed with closure per applicable regulations. Staff was able to make contact with 3Pro Environmental, LLC (Tipton, IN) that performs these services for many other municipalities and counties.

Legal and Engineering Staff are working with 3Pro to finalize a contract for a yet to be known cost but this emergency situation required action ahead of the Board meeting. This item is for informational purposes only and Staff will update the Board on costs, funding, and other particulars when the project is completed.

A recommended motion to receive and place on file.

A handwritten signature in blue ink that reads "Glen E. Morrow".

Glen E. Morrow, PE  
City Engineer
