Information Technology Department

August 26, 2025 BOW Agenda

To: Board of Works and Safety
Mayor Guy Titus

From: Rob Souchon – IT Manager

1. Request approval to enter a 60 month contract agreement with Comcast Business for 1 Gig dedicated fiber internet service at a price of \$659.95 per month which includes service and hardware. The 1 Gig connection will replace the current 150 mb x 15mb connection currently billed at \$273.85 per month. This increased connection speed is required to maintain the city's ability to move information between the network and the internet.

Comcast Business also provides the city with phone service. The new internet agreement will also bring over the phone service to the fiber infrastructure. Not only will the communication lines be moved to the new fiber infrastructure, but the dedicated fiber connection will also be monitored by Comcast Support for any issues our outages. This monitoring should provide more reliable up time for both phones and internet. The monthly cost for the phone service will not be changing from our current rate of \$313.95 which includes service and hardware.
