| Rob Southon | 05-06-2022 Repair SW short ... |

| Item | Description | Qty | Rate | Total |
|-----------------------|--|-----|-------------------|------------------|
| | Please travel to the SW corner of the Gateway looking East. The short stack, top half, is only working on "red". Remove circuit board to send in for repairs. | | | |
| Electrical 42' Buc... | Electrical Labor 2 men w/ Service Truck - Travel and Labor 04/19/2024 -Removed covers and took pictures of module's labels to send to ESL. | 3.5 | 175.00 | 612.50 |
| Electrical 42' Buc... | Electrical Labor 2 men w/ Service Truck - Travel and Labor -Return trip to remove the old fixture/wiring/brackets and replace with a new fixture. *This fixture is the "updated" version as the old part number is obsolete. Traxon will need to program this fixture to possibly "dim" the LEDs as it is new and possibly brighter than the older fixtures. We assume the existing dimensions, brackets, hardware, wiring, etc. are all the same as the old fixture. If not, there will be additional charges to modify what is existing. **The City of Greenfield will be scheduling the Traxon service call due to other programming needs/issues, so this quote does not include on-site programming if required. | 6 | 175.00 | 1,050.00 |
| Material - Electric | Material - Traxon LED fixture | 1 | 5,588.00 0.00% | 5,588.00 0.00 |
